3Y0Z: BOUVET 2018 ---> "We have found an alternate vessel that eliminates

the repositioning costs and at the same time adds additional margins of safety for our team", the Bouvet Island DXpedition team (3Y0Z) announced on 5 May. "Our departure will be approximately mid-January, 2018, possibly sailing to Bouvet from King George Island. We expect 9-11 day voyage to Bouvet. When the weather allows, we will land on the island by helicopter. Our first priority will be to inspect the terrain, select a site clear of crevasses and establish our shelters stocked with emergency supplies. Once secured, we will bring the rest of our equipment ashore and commence radio operations as soon as possible. We expect to be at Bouvet for 21 days, and allowing for weather, hope to be on the air for 14-16 days". You can read the full story in Press Release #5 on the News and Updates page on the DXpedition's website (<http://www.bouvetdx.org/>). "This is likely the most expensive DXpedition ever attempted and the operating team has committed to fund up to 50% of the costs. We are hopeful the DX community will fund the remainder. You may follow our planning progress and see our fund-raising results on our website".

DXCC REINSTATEMENT OF MIDWAY AND KURE ISLANDS ---> On 31 March the ARRL announced that Midway and Kure Islands had been placed on the list of DXCC deleted entities [425DXN 1353]. "The stated reason for this action", the ARRL reported on 11 May, "was because of changes in the administration resulting from changes in Papahānaumokuākea Marine National Monument", which includes Midway and Kure. "After further review it has been found that the deletion of these two entities is not supported by the changes that were made to the relevant administrations. Therefore, the deletions from the DXCC list should not have occurred and the two entities, Midway Island KH4 and Kure Island KH7K, will return to the DXCC list as separate entities". See <http://www.arrl.org/news/midway-and-kure-islands-reinstated-as-dxcc-entities>

"NEW" BARC ADMITTED TO IARU MEMBERSHIP ---> The member-societies of the International Amateur Radio Union have approved a proposal to admit the Belize Amateur Radio Club (<http://barc.bz>), a new representative of the Radio amateurs of Belize, to IARU membership. Belize previously was represented in the IARU by another organization of the same name. Once the IARU Administrative Council determined that this earlier organization no longer existed, IARU Region 2 accepted an application for membership from the new BARC and confirmed that it satisfied the requirements of the IARU Constitution and Bylaws. The officers of BARC are Emil Rodriguez V31ER (President), Dr. Andre T. Scholz V31DL (Vice President and IARU Liaison) and Steven Harp V31SH (Secretary). There are now 167 IARU member-societies in as many countries and separate territories. [TNX IARU Region 2]
